YEAR _____

Your version, *your numbers.*

Going in reverse, saving a flat amount, saving on payday or doubling up? Pick a version, write in this week's amount and the running total, and tick the week when it's done.

I PICK A VERSION ALL BUT THE LAST TWO END AT $1,378

Classic $1,378
$1 in week 1, then $1 more each week

Reverse $1,378
$52 in week 1, then $1 less each week

Flat $1,378
$26.50 every week, easy to automate

Payday $1,378
Every two weeks: $3, then $4 more each time

Double $2,756
$2 in week 1, then $2 more each week

$5 steps $6,890
$5 in week 1, then $5 more each week

MINE: START WITH $ _____ THEN EACH WEEK $ _____ GOAL $ _____

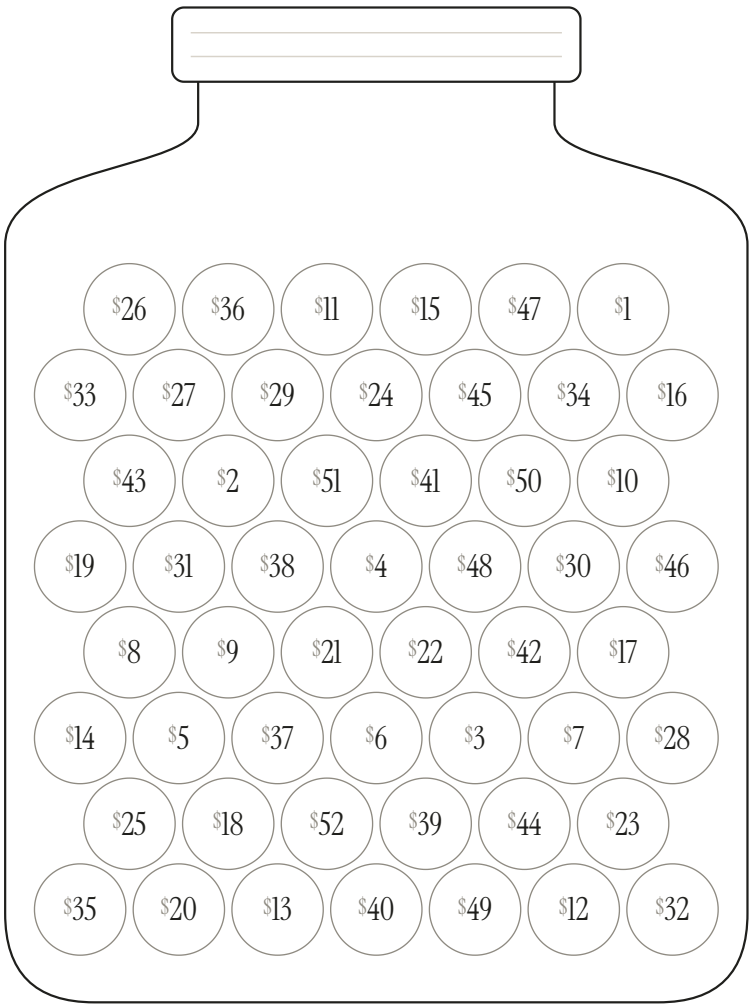
How each version plays out over the year: plannedo.com/blog/52-week-savings-challenge

YEAR _____

Any coin, *any week.*

Fifty-two amounts from $1 to $52. Each week, pick one that fits the week, put it away and cross it off: big ones when money is easy, small ones when it isn't. When the jar is empty, you've saved $1,378.



I MONTH END SAVED SO FAR

Jan	$	
Feb	$	
Mar	$	
Apr	$	
May	$	
Jun	$	
Jul	$	
Aug	$	
Sep	$	
Oct	$	
Nov	$	
Dec	$	

A lean week: take the smallest coin left.

A good week: take a big one, or two.

A missed week: pick one next week, and keep going.

II THE PLAN

SAVING FOR _____

MOVED TO _____ EVERY _____ AT _____

Why the order you choose matters: plannedo.com/blog/52-week-savings-challenge

YEAR 2027

Fifty-two weeks, *$1,378.*

Put away $1 in the first week, $2 in the second, and a dollar more every week up to $52. Tick a week when the money has actually moved, not when you meant to move it.

I THE PLAN

SAVING FOR Emergency fund: the next car repair, without the credit card

MOVED TO savings account at another bank EVERY Friday, after payday AT 8:00

IF I MISS A WEEK, I WILL move both weeks the next Friday, then carry on

II THE WEEKS TICK IT WHEN THE MONEY HAS MOVED
